KCS Other Software

Product	Description
K8 Web Builder */**	<p>K8 Web Builder Software is a software tool that facilitates and supports webpage content management and online trading.</p> <p>Please see the K8 Web Builder factsheet for more details.</p>
K8 Layered Applications **	K8 Layered Applications comprise of a suite of software applications and apps that have been developed to deliver optimized, mobile friendly experiences to users on Smartphones and other SMART devices. Note that these applications are designed to integrate with K8 and to utilise core K8 features and, as such, versions of these applications may be restricted to operate with specific versions of K8.
K8 Layered Application: K8 ePOD **	<p>K8ePOD is a Layered Application which provides the ability to capture proof of delivery detail, including recording the recipient and their signature, for each delivery drop made. It allows for the delivery manifest, as built within K8, to be exported to a mobile device and for the delivery or collection for each drop to be confirmed remotely. Signatures, notes and photographs are automatically uploaded into K8 when the device is connected to the airwaves, with this detail stored against the specific delivery or collection within K8.</p> <p>Please see the K8 ePOD factsheet for more details.</p>
Vecta **	Vecta is an on-line Sales Analytics and CRM solution, secured within a Data Center, and accessible to authorised users over the public internet within a modern browser environment. Sales analysis and customer data, provided to Kerridge Commercial Systems Ltd (KCS) and in the format specified by KCS is uploaded to Vecta by KCS on a pre-agreed frequency.
Navigator */**	<p>Navigator is an ERP solution that provides many features to service the requirements of the floor covering distribution industry.</p> <p>Please see the relevant Navigator Summary Factsheet which highlights the key features available within the relevant version of the product. In some cases you may</p>

	need to upgrade to the latest service pack release to take advantage of all modules. License allows access to the core functionality only.
DNav Online */**	An on-line trading platform that is integrated with Navigator ERP. This allows for enquiries and sales orders to be placed electronically. Please see the DNav Online factsheet for more details.
DNav WMS */**	An integrated warehouse solution for Navigator ERP, this allows for warehouse tasks to be managed and processed, including picks and inter-branch transactions. Please see the DNav WMS factsheet for more details.
DNav Showroom Manager */**	An application that is integrated with Navigator ERP, this product allows for customer quotations to be built in a showroom environment and for sales orders to be electronically raised within Navigator. Please see the DNav Showroom Manager factsheet for more details.
DNav EDI */**	An application that is integrated with Navigator ERP and supports a number of specific electronic messages, including the import of sales invoices and the export of purchase orders raised within Navigator. Please see the DNav EDI factsheet for more details.
DNav Business Intelligence (DNav-BI) */**	DNav-BI is a device responsive, browser based application that enables a user to analyze data stored within Navigator. DNav-BI allows key performance indicators (KPIs) dashboards to be established and for these and reports to be viewed on a mobile device.
DNav Commercial Quote Manager (DNav-CQM) */**	DNav-CQM is a device responsive, browser based application that enables companies to track commercial job quotes from inception to completion.
