Software: Product Description

KCS Other Software

Product	Description
SmartDistributor */**	<p>SmartDistributor is an ERP solution that is targeted at the general distribution market.</p> <p>Please see the relevant Smart Distributor Summary Factsheet which highlights the key features available within the relevant version of the product. In some cases you may need to upgrade to the latest service pack release to take advantage of all modules. Licence allows access to the core functionality only.</p>
FabSmart */**	<p>FabSmart is a software application that allows distributors to control and track the production and value-added costs related to the fabrication of products, from raw material picking to the assembly and receipt of kits and fabricated items. Integrated with the SmartDistributor ERP solution from Kerridge Commercial Systems, FabSmart supports both build-to-order or build-to-stock activities for both on premise and offsite light manufacturing processes</p> <p>Please see the FabSmart factsheet for more details.</p>
StockSmart */**	<p>StockSmart is a warehouse management solution offered by Kerridge Commercial Systems. It is integrated into the SmartDistributor ERP solution but can also be interfaced into other back office systems. StockSmart allows wholesale distributors and 3PLs to control movement and storage of product into, within, and out of a warehouse, while supporting warehouse personnel in the performance of material movement and storage in and around a warehouse.</p> <p>Please see the StockSmart factsheet for more details.</p>
ScanSmart */**	<p>ScanSmart enables wireless automation of general warehouse activities using RF technology for distributors utilizing Kerridge Commercial Systems' SmartDistributor ERP by supporting activities such as picking, receiving, putaway, cycle counting, and allowing electronic capture of serial numbers and UPC codes</p> <p>Please see the ScanSmart factsheet for more details.</p>
SigSmart */**	<p>SigSmart is a mobile application integrated to Kerridge Commercial Systems' SmartDistributor ERP system that supports electronic signature capture and proof of delivery for both pickup / will call and delivered orders. Using a smart device, delivery drivers can scan pick tickets to create delivery stops or load pre-defined delivery manifests. They can then capture signatures or record delivery exceptions regardless of whether an Internet connection is available.</p> <p>Please see the SigSmart factsheet for more details.</p>
Sales Portal **	<p>Sales Portal is a responsive web application available via a modern browser from any device that can connect to the Internet. Sales Portal allows sales people to access real time customer information, item price and availability,</p>

	sales statistics, and to place new orders for customers without having to directly access SmartDistributor.
SmartDistributor EDI */**	EDI provides a specific set of EDI (Electronic Data Interface) transactions that can be transmitted to and/or from the SmartDistributor ERP using either a VAN or via FTP to selected KCS Vendors
VMISmart */**	<p>VMISmart provides Vendor Managed Inventory (VMI) capabilities to distributors utilizing Kerridge Commercial Systems' SmartDistributor ERP. VMI is an automated process of sharing inventory data with a vendor on a daily basis to allow the vendor to replenish the distributor's inventory to pre-determined minimums and maximums by transmitting the following EDI transactions:</p> <ul style="list-style-type: none"> • 852 Product Activity Data • 855 Purchase Order Acknowledgement • 856 Advanced Shipping Notice • 810 Invoice • 820 Remittance Advice <p>Please see the VMISmart factsheet for more details.</p>
ConnectSmart	<p>ConnectSmart is a suite of third party interfaces to the Kerridge Commercial Systems SmartDistributor ERP system, including:</p> <ul style="list-style-type: none"> • ConnectSmart IntelliChief (*/**) – integration between SmartDistributor and IntelliChief's Document Management and Workflow solution • Connectsmart Alvara Avatax (**)
Web Builder for SmartDistributor	<p>Web Builder for SmartDistributor is a software tool that facilitates and supports webpage content management and online trading.</p> <p>Please see the Web Builder for SmartDistributor factsheet for more details.</p>
Vecta **	<p>Vecta is an on-line Sales Analytics and CRM solution, secured within a Data Center, and accessible to authorised users over the public internet within a modern browser environment. Sales analysis and customer data, provided to Kerridge Commercial Systems Ltd (KCS) and in the format specified by KCS is uploaded to Vecta by KCS on a pre-agreed frequency.</p> <p>Please see the Vecta factsheet for more details.</p>
Alvara Avatax **	<p>The Avalara AvaTax Interface is a series of REST APIs used to interface Kerridge Commercial Systems' SmartDistributor ERP to the AvaTax and CertCapture solutions provided by Avalara.</p> <p>Please see the Avalara AvaTax Interface factsheet for more details.</p>
