

SigSmart Summary factsheet

This document highlights the key features available within SigSmart.

- Allows capture of signature upon pickup or delivery of material.
- Can be utilized by any Apple or Android smart device.
- Supported transactions:
 - Customer deliveries
 - Customer pickups (credit memos)
 - Inter branch transfers
 - Vendor returns
 - Vendor pickups (purchase orders)
- Supports offline processing once delivery stops have been loaded into the app.
- Delivery tickets can be added manually to build a delivery stop.
- SmartDistributor's Truck Routing module can be used to build a manifest which can be scanned or entered to load delivery stops.
- Manifest and transaction information is downloaded to the device allowing the signature capture process to occur even if internet connection is not available.
- Delivery driver can record any exceptions to the transaction (i.e. items not delivered, damaged, refused delivery, etc.).
- Pictures can be taken of delivered products and attached to the line item of the transaction and can be displayed using SmartDistributor GUI.
- Allows capture of one signature for multiple orders.
- Sales order without exceptions are automatically ship-confirmed so that billing can occur.
- Transactions with exceptions are listed on a Delivery Exception Report for manual follow up and processing.
- Users can be notified immediately of delivery exceptions via a Delivery Exception Notification event.
- If a real time connection to the host system is available when the delivery is completed, the signature, line item images and any changes to the sales order transaction are transferred immediately to the system. Otherwise the delivery is placed into a queue for later posting.
- Transaction inquiry programs in SmartDistributor (green screen and GUI) allow display of signatures.
- Delivery confirmation via a signed pick ticket can be sent to a customer via print, fax or email.

About Kerridge Commercial Systems (KCS)

KCS provides advanced, fully integrated business systems, installation and support services for the manufacturing, wholesale and distributive markets. The company has over 40 years of extensive knowledge and experience of working with wholesalers, distributors and manufacturers across many sectors. The company's class leading solutions are functionally rich and highly flexible.

The KCS product solution set has a track record of delivering wide-ranging benefits including greater operational efficiency, cost savings and resource and asset utilization, together with real-time information for management decision making.
