K8 Summary factsheet

Kerridge
Commercial Systems

Self Paced Learning

This document summarises the key features available within Self Paced Learning.
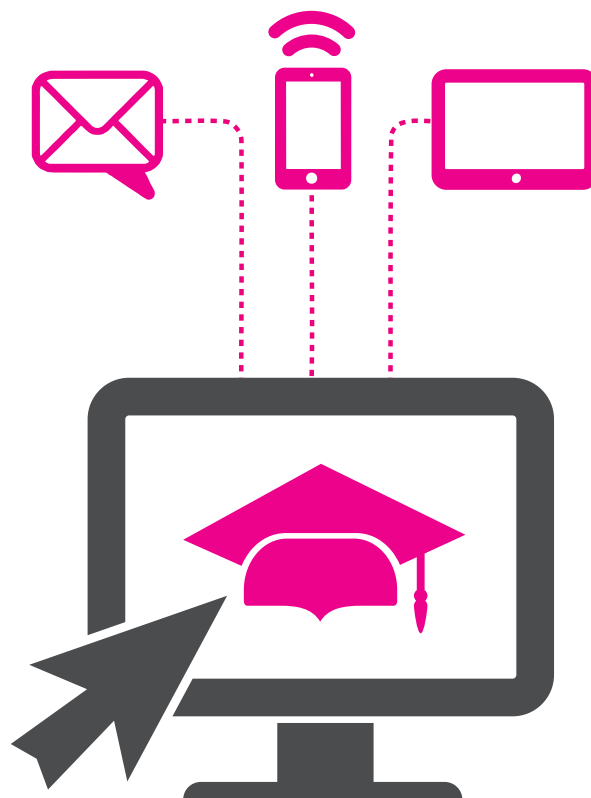

Self Paced Learning comprises of a suite of training courses that are made available on-line via the internet to nominated users subject to a valid subscription.

The courses, which are based on K8 Babbage 13 functionality, are accessed via the KCS Self Paced Learning Portal and may be run at a time of choosing. This enables delegates to work through the courses at a time of their choosing, subject to occasional maintenance down-time for the Portal.

The courses combine both video tutorials and written material. Each course contains a short test to enable users to practice the skills that they have learnt.

These courses are designed for businesses who are preparing for their K8 implementation, have taken on new staff, have staff who have changed roles, for those expanding their responsibilities or require a refresher course on the use of select K8 functionality. Downloadable guides are also available within the Portal for future reference.

A full schedule of the available courses is available within the KCS Customer Portal. The product is licenced for use on a per user basis and access is limited to the agreed courses for that subscription.

About Kerridge Commercial Systems (KCS)

KCS provides advanced, fully integrated business systems, installation and support services for the manufacturing, wholesale and distributive markets. The company has over 40 years of extensive knowledge and experience of working with wholesalers, distributors and manufacturers across many sectors. The company's class leading solutions are functionally rich and highly flexible.

The KCS product solution set has a track record of delivering wide-ranging benefits including greater operational efficiency, cost savings and resource and asset utilisation, together with real-time information for management decision making.
