

One Shop Management System to Run **Your Whole Business.**

Autowork[®]

From single-location auto service centers to independent repair shops, Autowork brings your business together in one cloud-based platform, with practical AI built in to make everyday tasks easier.

Manage your shop, customers, vehicles, parts, inventory, tires and invoicing in one place, with the flexibility to add more connected Klipboard solutions as your business grows.

Book a demo

Everything you need to run your business, all in one place.

Running a busy shop means keeping customers, vehicles, appointments, jobs, technicians, parts and payments moving at the same time.

Autowork brings it all together, helping your team spend less time juggling different processes, paperwork and systems, and more time keeping work moving.

+ Run your shop from one place

Manage appointments, repair orders, technicians and invoices, with a clearer view of what's happening and what needs to be done next.

+ Find, price and order parts

Check parts, supplier prices and availability, place orders, receive goods and manage inventory without leaving Autowork.

+ Manage tires alongside the rest of your shop

Check tire inventory, create quotes and fitted prices, and manage tire work alongside servicing, maintenance and repairs.

+ Keep customers and vehicles connected

Keep customer details, vehicle information and history together, so your team has the information it needs when a customer calls or arrives.

+ Take the job from invoice to payment

Create invoices and credits, record payments, manage customer accounts and produce statements in one place.

+ Get the information you need to complete the job

Access vehicle information, labor, repair times and maintenance schedules alongside the everyday shop information your team needs.

Practical AI that makes everyday work easier

Autowork puts AI to work on real jobs that can save your team time.

Its AI-assisted scheduling capability helps identify suitable appointment opportunities without manually working through the shop schedule.

It's a practical example of how Autowork is using AI to make every day work quicker and easier, with more AI capabilities to come.

- + Find suitable appointment opportunities faster.
- + Reduce repetitive manual work.
- + Keep everyday work moving.

Less admin. Less searching. A shop that keeps moving.

+ Spend less time searching for information.

Keep more of the information your team needs in one place, reducing the time spent searching through paperwork, different processes or separate systems.

+ Stay up to date on your busiest days.

See what's happening, respond quickly and keep work moving when things get busy

+ Find and order parts faster.

Check prices and availability and order the parts you need without leaving Autowork.

+ Get up and running faster.

Autowork is designed to be straightforward to set up, learn and use.

Built around automotive businesses.

Autowork draws on Klipboard's extensive experience across the automotive aftermarket and is designed for:

+ Service and repair shops.

+ Single-location aftermarket auto service centers.

+ Independent repair shops.

+ Shops running on paper, spreadsheets or an aging system.

Whether you're focused on tires, service, or a combination of both, Autowork gives you one place to manage more of the everyday work involved in running your business.

Start with Autowork. Add more when you need it.

What sets Autowork apart is its connection to Klipboard's wider range of automotive solutions.

Start with the capabilities your business needs today, then add connected solutions such as ecommerce and payments as your requirements grow

There's no need to piece together software from different providers or buy capabilities you don't need.

Nothing you don't need. More when you do.

Extend Autowork with connected Klipboard solutions as your business grows.

+ Autowork eCommerce

Take your business online with connected ecommerce capabilities.

+ Autocat

Identify and find the right parts faster with intelligent parts lookup.

+ Klipboard Money

Take and track payments while keeping more of the process connected.

Ready to run your shop smarter?

See how Autowork can bring more of your business together, make everyday work easier with AI and give you the flexibility to add more when you need it.
